AI Ethics & Responsible Usage Declaration

I hereby declare that:

- The dataset used in this assignment is properly cited and ethically sourced.
- I have analyzed potential biases present in the dataset and model.
- I have considered privacy implications related to the data used.
- I understand the responsible and ethical usage of the developed system/model.
- This work adheres to institutional guidelines on ethical AI practices.

Dataset Details:

Source: Publicly available Twitter data (manually collected/search-based dataset related to Android vs iPhone)

Type of Data: Textual data (tweets)

Contains Personal/Sensitive Data? (Yes/No): No

If Yes, describe anonymization steps: Not applicable (no personally identifiable information used)

Identified Bias (if any):

The dataset may contain bias due to limited sample size and subjective opinions of users. Additionally, certain sentiments (e.g., strong positive or negative opinions) may be overrepresented depending on trending discussions, which can influence model predictions.

Responsible Usage Statement:

The developed sentiment analysis model is intended for educational and analytical purposes only. It should not be used for critical decision-making or to generalize public opinion, as the dataset is limited and may not represent the entire population. Proper care should be taken to avoid misuse or misinterpretation of results.

Student Details:

Student Name: Girish Dayaghan Sakpal

UIN: 231A011

Course: B.E. Artificial Intelligence and Data Science

Date: 14/04/2026

Signature:
